PROFILE

IT programming student at UniCollege with seven Certiport IT Specialist certifications. I enjoy solving problems, building useful software, and learning from experienced developers. I am seeking an internship or junior developer role where I can contribute and continue to grow.

PRACTICAL SOFTWARE DEVELOPMENT

UniCollege | Coursework and capstone projects | 2026 - Present

Build applications through practical coursework, collaborate with peers on project milestones, and apply software development concepts to real-world use cases.

SELECTED PROJECTS

TrueMarket | Supermarket point-of-sale and operations

Built a full-stack, role-based point-of-sale system with barcode and SKU checkout, cashier shifts, sales and refunds, inventory management, low-stock tracking, and sales reports.

Technologies: Next.js, React, TypeScript, Supabase, PostgreSQL, Tailwind CSS, Zod | Source: github.com/Legionaka/pos-system | Live demo

Medi-Clinic | Healthcare workflow portal

Built a demonstration portal with separate patient, clinician, and administrator workspaces for appointments, records, billing, and clinic operations.

Technologies: Next.js, React, Supabase Auth, PostgreSQL | Source: github.com/Legionaka/5SOC_Dash | Demo: 5-soc-dash-zlps.vercel.app

TECHNICAL SKILLS

Languages
Python, JavaScript, TypeScript, SQL, HTML5, CSS

Frameworks and tools
React, Next.js, Flask, Node.js, Express, .NET (C#), REST APIs, SQLite, PostgreSQL, Supabase, Tailwind CSS, Git, GitHub, Vercel

Strengths
Problem solving, computational thinking, teamwork, communication

EDUCATION

IT Programming
UniCollege | Full-time programme, in progress | 2026 - Present

National Senior Certificate | Bachelor Pass
Hoërskool Monument | 2021 - 2025

CERTIFICATIONS

Certiport (Pearson VUE) | IT Specialist

Databases | Sep 2026
HTML5 Application Development | Aug 2026
Software Development | Aug 2026
JavaScript | Jul 2026
Python | May 2026
HTML and CSS | Mar 2026
Computational Thinking | Mar 2026
